## LOVE these shoes!!

February 16, 2012

**Pros:** comfy, good quality, versatile

I had these in my shopping cart for weeks until I finally cracked and just decided to try them. I wasn't sure how loafers would fit into my wardrobe but after seeing them in person and trying them on, they definitely won't be going back! The quality is great and the colors look just as good as in the picture. They look great with skinny jeans and a vintage tee, but also look nice with a dress. I bought these to wear to work (on my feet all day) and they seem like they will be perfect! I'm already thinking about buying another color,,,

**Great casual clutch,**

January 25, 2012

I bought the yellow color and I love it! Great size! I can fit my kindle fire in it and my phone with its case and my lip color, roll on perfume, and mirror. It is large but not too large and the pom poms are so cute.

**beautiful scarf - too expensive,**

February 18, 2012

This scarf is bright, beautiful, large, and lightweight. It will be a good scarf to transition into spring and early summer nights. I was tempted, but the price is too steep for me.

I only bought this necklace because I purchased the romper that they paired this with and loved the entire outfit together with the booties etc. I am so glad I did! For the price, this piece is so unique and great quality. The two items look great together, just as they do on the model. I hope I will have other outfits in my closet that this piece can be worn with, as it is too nice to save for only one outfit! :-)
